

Magical Fantasy Weigela Weigela florida 'Magical Fantasy'

Height: 4 feet Spread: 4 feet Sunlight: O

Hardiness Zone: 4

Group/Class: Magical Series

Description:

A magnificent spring-flowering shrub, featuring pink trumpet-shaped flowers, attractive to hummingbirds, and stunning white edged variegated foliage; somewhat open in habit, good for general garden use; needs full sun

Ornamental Features

Magical Fantasy Weigela is clothed in stunning clusters of shell pink trumpet-shaped flowers with white overtones and dark red throats along the branches in late spring. It has attractive green foliage edged in white. The pointy leaves are highly ornamental but do not develop any appreciable fall color.

Landscape Attributes

Magical Fantasy Weigela is a multi-stemmed deciduous shrub with a more or less rounded form. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and should only be pruned after flowering to avoid removing any of the current season's flowers. It is a good choice for attracting hummingbirds to your yard. It has no significant negative characteristics.

Magical Fantasy Weigela is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Magical Fantasy Weigela will grow to be about 4 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America.
